Show Me

Cover Girls

You say that you really love me
I'm always on your mind
And you say I should be your lover
And we should spend some timeBut I'm not persuaded that quickly
My heart has been broken before, you see
So if you want to be my lover
You have to prove your love is true to me'Cause it's easy to tell me you love me
Easy to say your thinking of me
Words are so easy to sayShow me, show me you really love me
Actions speak louder than words
Show me, show me you really need me
'Cause all those lies I've already heardShow me, show me you really love me
Let me believe that it's true
Show me, show me you really need me
And I'll get together with youYou say that there is no other
I am the only one
And you say that if we were lovers
We would have so much funBut my mother warned me that I should beware
Of young boys saying things like you say
So I must be sure that if I give you my love
You won't take it and then run away'Cause it's easy to tell me you love me
Easy to say your thinking of me
Words are so easy to sayShow me, show me you really love me
Actions speak louder than words
Show me, show me you really need me
'Cause all those lies I've already heardShow me, show me you really love me
Let me believe that it's true
Show me, show me you really need me
And I'll get together with youShow me, show me you really love me
Show me, show me you really need meShow me, show me you really love me
Actions speak louder than words
Show me, show me you really need me
'Cause all those lies I've already heardShow me, show me you really love me
Let me believe that it's true
