## **Falling**

## **Alison Moyet**

She said something like
I want to go down where the rivers wild
He said take me then

I want to drown deep in your violent eyes

(Feel the water rise again, call the river by your name)I want to float in through your door

Hang it on the wall hang it all

But I want to be sure of one thing

That I'm getting into something peaceful want to fly in on your wing

Way, way up here I don't care for anything

It's all in and I'm not afraid I don't fear

FallingShe said listen I've been telling you

I'm into something cruel

He said give me what got into you

I don't care what you do

(If there's a full moon in Taiwan I want half of what you're on)I want to open up your mind

Leave it all behind you and me

We are one of a kind, we may find

That we're getting high on something peacefulWe're gonna take it for a ride going nowhere fast

But we got nothing to tie ourselves on

And I'm not afraid to go down

FallingShe said something like I'm tired of me

You've got to paint my face

He said fold up like a paper boat

Set sail for me againI want to fly in on your wing

Way, way up here I don't care for anything

It's all in and I'm not afraid I don't fear

Falling
