By My Side

Left Alone

And I could not believe when I awoke today
Cause I'm not alone anymore
All the things she makes me feel, they run so deep inside
I'll love her forever more

Walking, holding hands
Kissing on the wet sand
There's nothing better than this
Don't want to be astray 'cause I
Don't want to be afraid and
She's something that I would miss

I'm not alone tonight
I've got my girl by my side
And there's nothing else that's better than this
Holding her in my arms as we share a kiss

She's always got a smile on her face, in her arms I feel peace
Her love feels like home
Don't want to be apart 'cause I
Don't want to fall apart 'cause I
Don't want to go back to being alone

I'm not alone tonight
I've got my girl by my side
And there's nothing else that's better than this
Holding her in my arms as we share a kiss
