

The Earth Will Move

Blue System

I feel the earth will move
Feel the earth will move
Music is a great romancerI feel it in the groove
Feel it in the groove
Music is the greatest dancerI feel the earth will move
Feel the earth will move
Music is a great romancerI feel it in the groove
Feel it in the groove
Music is the greatest dancerIt's only just a fantasy
Oh, love is not a mystery
Oh, it's a secret love affairSeven faces of success
Like sending out an S.O.S
Oh, it's a secret love affairI feel the earth will move
Feel the earth will move
Music is a great romancerI feel it in the groove
Feel it in the groove
Music is the greatest dancerMusic is a great romancerI think it's better if you try
Till the sun has left the sky
Oh, it's a secret love affairA heart is like a wounded love
And I will steal the stars above
Oh, it's a secret love affairI feel the earth will move
Feel the earth will move
Music is a great romancerI feel it in the groove
Feel it in the groove
Music is the greatest dancerMusic is a great romancer
(Come on, come on)
Music is a great
Music is a great romancerMusic is a great
Music is a great
Music is a great romancerI feel the earth will move
Feel the earth will move
Music is a great romancerI feel it in the groove
Feel it in the groove
Music is the greatest dancerFeel the earth will move
Feel the earth will move
Music is a great romancerI feel it in the groove
Feel it in the groove
Music is the greatest dancer
