

Catch the Wind (Northeast Kingdom Remix)

High Highs

i can feel you far away
something has changed
the rest set sailfire will you cover me
will it be too late
if we catch the windhey you're not alone
go break the mold
go where you are free
alone i saw
i fall in alone
love where will you lead?when we're alone.the morning brighter still
you give me peace
you bring me peacei know that you feel insane
will it break your heart
if u hear it on the windhey you're not alone
go break the mold
go where you are free
alone i saw
i fall in alone
love where will you leadwe're alone.
