

Don't Know What I Am

Wipers

DON'T KNOW WHAT I AM

I don't know what i am

So just go put on another sham

What do you do when your always subjected

What do you do when your always neglected

Try to run but there's now way

To find a sanctuary Do you know what you are

I had the feeling we could go far

What do we do when were always rejected

What we feel when were always suspected

Try to run but theres no where

To find a sanctuary
