

# Blackout (Broasis Remix)

## Breathe Carolina

Cut up and I can't feel my hands,  
No need to chase.  
Can you relate?  
Can you keep up the pace like you're dying for this? And when you say "I'm not okay"  
I left my phone in the cab  
But you can't get me. I'm only getting started  
I won't blackout  
This time I've got nothing to waste  
Let's go a little harder  
I'm on fire  
I won't blackout  
I'm on my way I'm only getting started And I can't see your face  
Cigarette the wrong way  
Inhale to the top of my lungs  
I've been dying for this And when you say "I'm not okay"  
I left my phone in the cab  
Now you can't get me I'm only getting started  
I won't blackout  
This time I've got nothing to waste  
Let's go a little harder  
I'm on fire  
I won't blackout  
I'm on my way I'm only getting started  
I won't blackout  
This time I've got nothing to waste  
Let's go a little harder  
I'm on fire  
I won't blackout  
I'm on my way I'm only getting started This won't stop till I say so  
This won't stop till I say so  
This won't stop till I say so  
Going and going and going and going and go This won't stop till I say so  
This won't stop till I say so  
This won't stop till I say so  
Going and going and going and going and go I'm only getting started  
I won't blackout  
This time I've got nothing to waste  
Let's go a little harder  
I'm on fire

I won't blackout  
I'm on my way I'm only getting started  
I won't blackout  
This time I've got nothing to waste  
Let's go a little harder  
I'm on fire  
I won't blackout  
I'm on my way I'm only getting started This won't stop till I say so  
This won't stop till I say so  
This won't stop till I say so  
Going and going and going and going and go I'm only getting started This won't stop till I say so  
This won't stop till I say so  
This won't stop till I say so  
Going and going and going and going and go I'm only getting started
