# The World Is Getting Bored

## Randy

Salvation army sings Christmas carols
Outside the shopping mall
Me, I can't wait to get back out on the road
And play some rock and rollThe warm and comfortable feeling
Of being a punk rock band
Is what I need this time of year
When peoples need to consume get way out of hand?The world is getting bored
It's getting bored
The world is getting bored
It's getting boredThe kids these days
They are fed up with the music industry
They don't care about the product
So they download their music on mp3This is what you get
When you get too greedy for long
The kids don't want your plastic box no more
They just want the songsThe world is getting bored
It's getting bored
The world is getting bored
It's getting boredWell, who designs these small white envelopes
In mall saying this and that?
Bills, forms, questions
And all kinds of things that make me depressedWho decided that we have to live like this?
Together all alone
Well, don't look so surprised, mister
You were the one who cast the first stoneThe world is getting bored
It's getting bored
The world is getting bored
It's getting boredThe world is getting bored
It's getting bored
The world is getting bored
It's getting boredThe world is getting bored
It's getting bored
And we are getting bored with the worldThe world is getting bored
It's getting bored
And we are getting bored with the worldIs getting bored
It's getting bored
And we are getting bored with the worldIs getting bored
It's getting bored
And we are getting bored with the world

We are getting bored with the world
