

# Dangerous Game (LP Version)

Tommy Shaw

You do just what you want to do  
I see the way they look at you  
It always come easy You walk into a crowded room  
The subtle hint of your perfume  
It always comes easy You never seem like you're trying  
Still you get your way  
You know you're living a lie and  
Someday you'll pay, so Don't play with love - it's a dangerous game  
It'll tear you apart; it can drive you insane  
You make the choice between pleasure and pain  
Serious, girl - it's a dangerous game You never have to try too much  
You think you got the magic touch  
You really believe it You always have to have control  
You never get emotional  
Do you really believe it? When someone tries to get closer  
You just turn away  
You get to say when it's over  
You say who stays, but Don't play with love - it's a dangerous game  
It'll tear you apart; it'll drive you insane  
You make the choice between pleasure and pain  
Serious, girl - it's a dangerous game Baby, you think you're so clever  
Acting this way  
You know this can't go on forever  
Someday you'll pay, so Don't play with love - it's a dangerous game  
It'll tear you apart; it'll drive you insane  
You make the choice between pleasure and pain  
Serious, girl - it's a dangerous game Don't play with love - it's a dangerous game  
It'll chew you up, spit you out again  
You make the choice between pleasure and pain  
Serious, girl - it's a dangerous game Don't play with love - it's a dangerous game  
It'll tear you apart; it'll drive you insane  
You make the choice between pleasure and pain  
Serious, girl - it's a dangerous game
