

# Black Madonna

Jennifer Leonhardt

black madonna in your carousel of careful  
you got four children in your surround  
all little hands all reachin for ya  
your kindness to them is a healing on this train

chorus

black madonna hurtling through this endless night  
black madonna you are sweeping into uptown  
a prayer you'll find you waiting when you get there  
an angel in your man's arms

cuz why take chances if you dont really have to  
the world has showed its face to you  
set the carriage in the middle like a mirror  
and turn the hateful back from where they came from

chorus

black madonna hurtling through this endless night  
black madonna you are sweeping into uptown  
a prayer you'll find you waiting when you get there  
an angel in your man's arms

i want a man who really loves me  
if that's too much i dont give a damn  
it's 9 parts sorrow 1 part hopeful for the loving  
that's what it feels like at the end of a black madonna day

chorus

black madonna hurtling through this endless night  
black madonna you are sweeping into uptown  
a prayer you'll find you waiting when you get there  
an angel in your man's arms  
in your man's arms
