

Velvet Erotica

Beseech

[Music: Klas]

[Arrangement: Beseech]

[Lyrics: Jorgen] I see her walking through the shadows

A scent of perfume as her head lays to my chest

A broken heart completes the circle

She screams out loudly as my tongue touches her breast
Come to me now, Velvet Erotica
No friend of God, no
she's unholy

Erotic dreams makes you a victim in her sight

From black velvet comes her beauty

And like the wolves, I hear her howling through the night
