

Who Will I Be

Demi Lovato

Woah
Yeah, yeah, yeah
How to choose
Who to be
Well let's see
There's so many choices now
Play guitar, Be a movie star
In my head a voice says
Why not
Try everything
Why stop
Reach for any dream
I can rock
'Cause it's my life and now's the time
(CHORUS)
Who will I be
It's up to me
All the never-ending possibilities
That I can see
There's nothing that I can't do
Who will I be
Yes, I believe
I get to make the future what I want to
If I can become anyone and know the choice is up to me
Who will I be?
(Yeah)
If I decide
I'm the girl

To change the world
I can do it any time
Opportunity right in front of me
An the choice is all mine
Why not
Try everything
Why stop
Reach for any dream
I can rock
'Cause it's my life and now's the time

(CHORUS)

I wanna find the
Who I am inside
Who will I be
I wanna show the
The way that I can shine
Oh, yeah
Who will I be
It's up to me
All the never-ending possibilities
That I can see
There's nothing that I can't do
Who will I be
Yes, I believe
I get to make the future what I want to
If I can become anyone and know the choice is up to me
Who will I be
Whoa
Who will I be
Who will I be?
