

Kill the Idealist

Kalmah

A pioneer of humanity
Declaring his truth to the crowd
Word of wisdom is what he speaks
Wisdom he never has reached A well-educated know-it-all
But never has done anything
Collects info from sources
The vice man has left behind [Chorus:]
Kill the idealist
Get him a job
Kill the agitator
Capital rules the world So let him found a labour
On his own certain conditions
And try to heal society
Without support [Chorus:]
