

The Love That You Give

Wolfmother

You set your sight so high you cannot start
People talk about you and they pull you apart
You need to be there, you need to make it right
The road is winding
and the mountains are rough
The world is calling and it can be so tough
You need to be there, you need to make it right
With the love that you
give
With the love that you give
You need to be there
You need to be there
With the love that you give
With the love that you give
With the love that you give
So many problems you don't know where to start
Someone mislead you and they've broken your heart
You need to be there, you need to make it right
With the
love that you give
With the love that you give
