

# Can't Stop, Won't Stop

## Madball

You are the blood running through my veins  
You are the streets that made me this way  
In you I've lost and regained faith  
But in my silence I'll never betray These are the streets  
Where men are made  
Where our values are sometimes plagued  
Into temptation I dwell for days And I can't stop, won't stop  
Living by the gun  
I never want to run from my fears  
I can't stop living this way And I know what my life means to me  
And I see there's things that shouldn't be  
And I know that there's still hope for me  
But I see myself in these streets And I try but I can't stop  
You say there's still time but I won't stop  
And I know that there's still hope for me  
But I see myself in these streets I pray there's hope for me
