

Swords and Guns

RPWL

We only do what god wants us to do
We only do what god wants us to do
(on the move)
And once again, a story took it's course
 A change in history
 Like in a nightmare
Thousands of man to set Jerusalem free
 There isn't no joy like this
 A chance to please the lord
 And to defend the priest
 Come and take up the sword
 I'm not going, I'm not going home
 Don't let needs restrain my longings
 I'm not going, I'm not going home
 I can see our star is rising
 Left right left right straight ahead
 Your disbelief will cause your death
 We don't do what we want to do
 It's god that wants us
 We only do what god wants us to do
 We only do what god wants us to do
 (East and west)
 Swords and guns
 Wherever sin may be
 And the night came on
 Face to face we'll meet
With the lord on our side we we'll start to kill them all
Just dogs with basic needs, against an eastern world
 The spring and esprit. Soon will be no more
 I'm not going, I'm not going home
 Don't let needs restrain my longings
 I'm not going, I'm not going home
 I can see our star is rising
 Left right left right straight ahead
 Your disbelief will cause your death
 We don't do what we want to do
 It's god that wants us
 (In maharad)
See this old man, cook him till he's soft

And this kid lift it with your sword
The flesh of disbelief
Woe betide you if you're without creed
God wants us to stay alive in superiority
His will be upon you, bring you to Calvary
I'm not going, I'm not going home
Don't let needs restrain my longings
I'm not going, I'm not going home
I can see our star is rising
Left right left right straight ahead
Your disbelief will cause your death
We don't do what we want to do
It's god that wants us
We only do what god wants us to do
We only do what god wants us to do
We only do what god wants us to do
We only do what god wants us to do
