

Space Between Us

Steps

Never thought we'd end like this
When nothing left to say
When it hurts too much to kiss
It is time to walk awayThe dreams we dreamed
A like you bare
That everything we hadOh, I had love when I had time all
That is left to the space between us
When to fall can pouring rhyme, your rhyme
Oh, that the tears can move to cry
All that is left to the space between us
And I don't want to lose my mind, my mind
And another place in time
You don't love at from the air
With the battles we bought fight
We're off from the sun againAnd i'd thought I
The Castasenchase
And only one we amazeOh, I had love when I had time all
That is left to the space between us
When to fall can pouring rhyme, your rhyme
Oh, that the tears can move to cry
All that is left to the space between us
And I don't want to lose my mind, my mindOh, I had love when I had time all
That is left to the space between us
Oh, I had love when I had time all
That is left to the space between us
When to fall can pouring rhyme, your rhyme
Oh, that the tears can move to cry
All that is left to the space between us
And I don't want to lose my mind, my mind
