

Dream, Again

Gratitude

Shes always sayin' maybe well never know
And I cant hear it for all my fears
Im too busy prayin' wishin' for what I should
Do or say to get my way, oh maybe well never know
Were on our way, it's never done
All of the joy and pain
Were on our way, it's never done
All of the joy and pain
Dream again, dream again
The windows shuttered the big day never comes
The gift is giving what comes with it
Celebrate the birth at any age
Eat up grow up shut up measure up
Were on our way, it's never done
All of the joy and pain
Were on our way, it's never done
All of the joy and pain
Dream again, dream again, dream again
Were on our way, it's never done
All of the joy and pain
Were on our way, it's never done
All of the joy and pain
Were on our way, it's never done
All of the joy and pain
Dream again, dream again
Dream again, dream again, dream again
