

# If This Is Love

## Take That

You came to me, baby  
And I thought that I saw love in your eyes  
But all the promises you made were not to be  
I should have seen through your disguise Oh no baby you know you always tried  
Make me look the fool, what's goin' on  
You used to be so good to me now what is wrong Tell me why you want to hurt me  
Is this the way that love has got to be  
Now baby I can't take it  
If this is love then love's not meant for me What has happened to you lately  
I don't sense that lovin', feelin' anymore  
Every time you bring me down I want to cry  
Do you want to see me walkin' out that door Tell me why you want to hurt me  
Is this the way that love has got to be  
Now baby I can't take it  
If this is love then love's not meant for me Oh no baby you know you're always trying  
To make me look the fool  
Won't you tell me why you hurt me  
Is this the love has got to be  
No baby, I can't take it  
If this is love then love's not meant for me Tell me why you want to hurt me  
Is this the way that love has got to be  
Now baby I can't take it  
If this is love then love's not meant for me
