

Sixes

Onelinedrawing

And you won't say, "I knew her when"
The time for that has come and gone
 like the railway station
You won't say, "If I'd known that then,
 I would not run, I would have stayed
Could have been okay" We lay around
 We lay around
 We lay around all of our lives
All of our lives, we lay around. This is the place we've built inside
 A place for sixes, suns and cows
 Little things like memories
 Why was I scared of what I'd find?
 Sibling trust, lover's dance
 Laugh like old friends We lay around
 We lay around
 We lay around all of our lives
All of our lives, we lay around.
