Swim

Lil Mama

He walking but he wanna swim with me
He walking but he wanna swim with me
Either way there's no way he gon' drown
Either way there's no way he gon' drown
He wanna swim
Straight out of the ocean I was raised in the water
Find my way to swim shore to the boy with two legs
Me, I'm a mermaid, different lifestyles and
He wanna swim
And I don't mind that
But I don't know if can keep up with where I'm at
I'm surrounded by sharks and they all bite
And quick to attack if they sense what they don't like, like
He can't swim with me 'cause if I walk with him
He gon' still my speed so I can't talk to him
But if he keep up and fight through the waves
Fight through the pressure and the gust of your days
Test water with toes and dive in brave
You better follow your nose 'cause I'm so hey, hey
Hard to catch up with so he can't fit
Threw his life jacket on and still can't catch this girl
He walking but he wanna swim with me
He walking but he wanna swim with me
Either way there's no way he gon' drown
Either way there's no way he gon' drown
He wanna swim
He walking but he wanna swim with me
He walking but he wanna swim with me
Either way there's no way he gon' drown
Either way there's no way he gon' drown
He wanna swim
In the part of the water that drip, drip
Drip from a piece that boarder
Nates on my wardrobe, hate with my wardrobe
Don't match with my boy, oh
He wanna swim
With, with I
Come and doggy paddle with a girl so fly
Talking 'bout he ain't never seen a girl like my, my, ha, ha, ha

He wanna swim
I know that game
You better off keeping it real for a change
Making things more than I knew they was
And he doing that just because
He wanna swim
From the pond to the pool, to the river, to the ocean
Boy, I see you
Enter my world, you'll see how we do
No stat work, work premiere to preview, ooh
He walking but he wanna swim with me
He walking but he wanna swim with me
Either way there's no way he gon' drown
Either way there's no way he gon' drown
He wanna swim
He walking but he wanna swim with me
He walking but he wanna swim with me
Either way there's no way he gon' drown
Either way there's no way he gon' drown
He wanna swim
I know you want to swim boy, I know you wanna
I know you want to swim boy, I know you wanna
He wanna swim
I know you want to swim boy, I know you wanna
I know you want to swim boy, I know you wanna
He wanna swim
Hey, you can swim with me,
Break it down, do the swim with me, oh
It's like that
You can swim with me
Break it down, do the swim with me oh
You like that
You can swim with me
Break it down, do the swim with me hey
It's like that
You can swim with me
Break it down, do the swim with me hey
You got it, oh
He walking but he wanna swim with me
He walking but he wanna swim with me
Either way there's no way he gon' drown
Either way there's no way he gon' drown
He wanna swim
He walking but he wanna swim with me
He walking but he wanna swim with me

Either way there's no way he gon' drown
Either way there's no way he gon' drown
He wanna swim
He wanna swim
