

# I Burn Like

[Stelios Vassiloudis](#)

I burn like  
A chemical  
That keeps alight  
An animal One saving grace  
Before I fall  
Not a single trace  
Of what I was before Things don't work these days  
I don't know why  
(x2) I dream like  
I'm wide awake  
It feels like  
I'm in control For heaven's sake  
I feel you wanna know too much  
You got my eye  
I can't imagine how you think  
You got my mind  
Don't turn your head  
Don't cry Things don't work these days these days  
I don't know why  
(x4)
