

# Do Me Right

## Wild Orchid

Do me, do me, do me right  
Do me, do me...I wait up late at night  
    Put out the candlelight  
    Go to sleep because i know  
You'll be here tomorrow when i wake up  
    Give all the time you need  
    Your words i will believe  
    See it though the little things  
If you know never to abuse it  
    Don't try me  
    Don't lie to me  
    Don't be afraid  
    Oh..Dhorus:  
    Do me, do me, do me right  
    Now make  
    All your wishes come alive  
    When I say  
    Do me, do me, do me wrong  
    And i will  
Give you more than you have to pay  
    Do me, do me, do me right  
    Now make  
    All your wishes come alive  
    When I say  
    Do me, do me, do me wrong  
    And I will  
Make you wished that you never stayed  
    Do me, do me right  
    Do me, do me...  
    Champange and caviar  
    So close but no cigar  
    All I need is what you are  
    Designer suit?  
I'd rather see you on the weekend  
    Any words than honesty  
    Is more than enough for me  
    I'll wait and I'll be true  
I just need to hear you say "I love you"  
    Don't try me  
    Don't lie to me  
    Don't be afraid  
    Oh..nochorus:

Do me, do me, do me right  
Now make  
All your wishes come alive  
When I say  
Do me, do me, do me wrong  
And I will  
Give you more than you have to pay  
Do me, do me, do me right  
Now make  
All your wishes come alive  
When I say  
Do me, do me, do me wrong  
And I will

Make you wished that you never stayed Give you all the time that you might need  
Every single word I will believe  
If you never ever crossed the line  
If I had the chance I will stand by you  
But you got to promise to be true  
Anyway I say

Do me right now and make your wishes come alive Chorus:

Do me, do me, do me right  
Now make  
All your wishes come alive  
When I say  
Do me, do me, do me wrong  
And I will  
Give you more than you have to pay  
Do me, do me, do me right  
Now make  
All your wishes come alive  
When I say  
Do me, do me, do me wrong  
And i will

Make you wished that you never stayed  
Do me, do me, do me right  
Now make  
All your wishes come alive  
When I say  
Do me, do me, do me wrong  
And i will

Give you more than you have to pay  
Do me, do me, do me right  
Now make  
All your wishes come alive  
When I say

Do me, do me, do me wrong  
And i will  
Make you wished that you never stayed
