

Jason's Basement

Gossip

Well I get by with the people I know
Get by with the people I know
And it seems like everywhere I go
Yeah everywhere I go Well some do it, some may don't
And some I guess just won't
So I get by with the people I know
Get by with the people I know Won't you hang up and dance with me
No inhibition hun come dance with me Well I get by with the people I know
Get by with the people I know
And it seems like everywhere I go
Yeah everywhere I go Well some do it, some may don't
And some I guess just won't
So I get by with the people I know
Get by with the people I know Won't you hang up and dance with me
No inhibition hun come dance with me
No inhibition come dance with me
