

This Is the Heartache

Meredith Edwards

YeahJust look at him laughing out loud
Life of the party
And look at me trying to be strong
Fighting the tearsHow can he just sit there acting
Like we never even happenedSo this is the heartache, I've heard about
Part of love, I can live without
Giving it all, loving in vainThis is the heartache, I've heard about
Great future behind me now
As the memories run down my face
This is the heartacheIt's not like me to become
A wall decoration
But here in the corner at least
All eyes aren't on meSo that's the new girl, he's seeing
Think it's time I should be leavingSo this is the heartache, I've heard about
Part of love, I can live without
Giving it all, loving in vainThis is the heartache, I've heard about
Great future behind me now
As the memories run down my face
This is the heartacheIs love only a trip of the mind
An illusion done with mirrors, smoke and lightsOh, this is the heartache, I've heard about
Part of love, I can live without
Giving it all, loving in vainAnd this is the heartache, I've heard about
Great future behind me now
As the memories run down my face
This is the heartacheThis is the heartache
This is the heartache
