

Bandages

Rebekka Karijord

These bandages cover more than scrapes, cuts and bruises from regrets and mistakes

I've been hoping your moping around the street again

I've been tripping from sipping the dripping dirty water tap

I've been poking a voodoo doll that you do not know I made

These bandages are anonymity

I've been shaking from making an awful decision

I've been running and running

feels like my head is spinning round and round, around, around, around, around, around
Bandages on my legs
and my arms from you

Bandages, bandages, bandages

Up and down on my legs and my arms from you

Bandages, bandages, bandages I've been hoping your moping around the street again

I've been tripping from sipping the dripping dirty water tap

I've been poking a voodoo doll that you do not know I made

For you, of you, let's see what needles do

I've been shaking from making an awful decision

I've been thinking I'm drinking too many drinks all by myself

I've been running and running

Feels like my head is spinning round and round, around, around, around, around, around
Bandages on my legs
and my arms from you

Bandages, bandages, bandages

Up and down on my legs and my arms from you

Bandages, bandages, bandages

Bandages on my legs and my arms from you

Bandages, bandages, bandages

Bandages, bandages, bandages Don't worry now, don't worry now, don't worry cause it's all under control

Don't worry now, don't worry now, don't worry cause it's all under control

Don't worry now, don't worry now, don't worry cause it's all under control

Don't worry now, don't worry now, don't worry cause it's all under control

Don't worry now, don't worry now, don't worry cause it will all turn around,

around, around, around, around, around, around, around
Bandages on my legs and my arms from you

Bandages, bandages, bandages

Up and down on my legs and my arms from you

Bandages, bandages, bandages

Bandages on my legs and my arms from you

Bandages, bandages, bandages

Up and down on my legs and my arms from you

Bandages, bandages, bandages

Bandages, bandages, bandages

Bandages, bandages, bandages
