

# Inhaler

## Slide Five

Water falling down a hundred meters  
Colored by the sun in rainbow colors  
Paul is driving me around through fields of light  
Blinded by the sun fight the clouds  
Be an inhaler have no doubts  
Let them take you on a voyage to another  
Let them take you on a voyage to another  
Let them take you on a voyage to another  
Water falling down a hundred meters  
Colored by the sun in rainbow colors  
Paul is driving me around through fields of light  
Blinded by the sun fight the clouds  
Be an inhaler have no doubts  
Let them take you on a voyage to another

Let them take you on a voyage to another  
Let them take you on a voyage to another  
As I was saying, the stereo is full of surprises  
A new stereophonic sound spectacular  
A new stereophonic sound spectacular  
We're able to tell in an instant  
Where a particular sound is coming from  
A new stereophonic sound spectacular  
A new stereophonic sound spectacular  
A new stereophonic sound spectacular  
A new stereophonic sound spectacular  
A new stereophonic sound spectacular  
As I was saying, the stereo is full of surprises
