

# The Bank

## Papoose

Whatever it is spit it into a bottle and sell it to me  
Im looking to buy freedom from my sobriety  
Just like Huey Lewis I need a new drug, I need a new drink  
I need a new drug that does what it should So take me to the bank  
Take me to the bar  
Can you take me to the hot spot?  
This is what we worked so hard to afford but Take me to the bank  
Can you take me to the bar?  
Can you take me to the hot spot?  
This is what we worked so hard to afford but  
How I wanna hide The next time you visit me here  
How about coming out to my place  
We can sit on the floor and play my brothers records  
We can sit on the grownup bed Couple with the coin  
Lighting up to join the coping crowd  
My big brother said to stay unsatisfied  
Never work a day to pay off your desire Couple with the coin  
Lighting up to join the coping crowd
