# Going Left

## Eric Clapton

[Chorus:]
(Well) I'm goin' left
'Til you lead me to the right
Lead me to what is right
I'm goin' left
'Til you lead me to the right
Lead me to what is rightThere's a train people say
I could ride to get my whole life straight
But the bridge on the way
Has a toll too much for me to pay
Yes I know it must be
What I chose could mean my destiny
Lights are green all is go
But my heart keeps telling my mind no[Chorus]There's a land over there
Where all are given equal share
What you get is so small
It's like never having nothing at all
Take my hand as a friend
A will stick with you until the end
But I'm in doubt I must decline
'Cause even friends can change their lines[Chorus]
