

# Down to the Valley

Harry Nilsson

Down from the mountains, down from the hill side  
Down to the valley where the people all stay  
Say, down to the valley where the people all stay  
Down to the valley, gonna teach the children how to play  
Down from the mountains, down from the hill side  
Down to the valley where the people all stay  
Say, down to the valley where the people all stay  
Down to the valley, gonna teach the children how to play  
He came down from the mountain, down from the  
hillside  
Down from the heavens, down by the riverside  
Down to the village, down to the people  
Down to the children, he teach them how to play  
Down to the valley where the people all stay  
Down to the valley, gonna teach the children how to play  
Going down from the mountain to the valley  
Down from the valley to the people, teach them how to play  
Down from the mountain to the valley  
Down, down  
Down from the mountains, down from the hillside  
Down to the valley where the people all stay  
Down to the valley where the people all stay  
Down to the valley, gonna teach the children how to play  
Down to the valley, down form the hill side  
Down to the valley where the people all stay
