

Lunatic

Bilal

Lunatic, yeah
Turn me up, so loud
Get it now, yeahThe next time on the dance floor
A crazy lunatic, I'm locking all the doors
Shot of the gun sounds like music to my ears
Why is everybody running? I just wanted to dance
I am addicted to mayhem when I'm up high
Check this whole thing now
I'm counting the days now, [?]
I'm am just a vigilanteLooking for the medicine man
They say he's not too far to find
They say he's giving site to the blind
They say his every act is divine
Get up now
Find your life, you'd wanna get assistance down
Yeah, yeah turn me up
Turn me down
It's on now
Get it now, yeahLooking for the medicine man
They say he's not too far to find
They say he's giving site to the blind
They say his every act is divine
Get out now
Find your life you'd wanna get assistance down
Yeah, yeah turn me up
Turn down
Created a coupe
