

Deeper Well

Nada Surf

if i fell down a big hole
would you tell
how do you know
it's a deepening well
like the big o
i know it's a bad scene to be whole
it's a bad dream i hope
marie
to feel
they're following me
if i painted a tear
would you figure it out
would it make matters clear
would it shed some doubt
it's been happening for years
it's a roundabout
pull back from the front
there's a bigger gap than you thought
a bigger trap in which to be caught
i've got to get away from the bricks
all these straight lines are making me sick
