Stranger to Me

Giant

The night was long, the silence deep
Too many thoughts in my head
As I watch your easy sleepYour body moved, your breath came slow
I saw a face that I loved
But a girl I did not knowTell me, someone, please, tell me
It's making you act so strange
Too good, our love has been too good
How did you ever change?'Cos all I want is you, to give me the love
Give me the love that I once knew
I'll do what you want me to do
'Cos all I want is you, but you're a stranger to meI looked at you, you turned away
Too many thoughts in my head
But I don't know what to sayOf course in times, I've tried and tried
To get next to you
But you keep me locked outsideCome back, come back, babe
And tell me what's on your mind
Too late, never say, it's too late
Girl, I've always got the timeAll I want is you, to give me the love
Give me the love that I once knew
I'll do what you want me to do
'Cos all I want is you, but you're a stranger to meLet go, you know I'll never let go
I'll bring you back inside
No more, I can't take no more
I'm living on the outside'Cos all I want is you, to give me the love
Give me the love that I once knew
I'll do what you want me to do
'Cos all I want is you, you, you
