

# Feels Good To Be Here

## Shawty Lo

Yeah, I told you I would  
I told you I would  
It feels good to be here  
It feels good to be here  
It feels good to be here  
I must done, did something right here  
It feels good to be here  
It feels good to be here  
It feels good to be here  
I must a done, did something right here  
90 degree my granny left me, I'm confused  
My home is da streetz, all doors took da stand  
I was like damn what about my hand  
A young teen was to be a grown man  
My idol was Michael Jordan, Dopeman, Dopeman  
Yeah, dat's me and every since I heard dat  
Yeahs, dat's me, 9th grade dropout  
Was a matter of a cause  
Hit Curt Ryan, jersey snatched it  
Straight out da closet  
Dope boy, fresh boy, I swear I was ballin'  
Fit from Kels, got my kicks from Walter  
It feels good to be here  
It feels good to be here  
It feels good to be here  
I must done, did something right here  
It feels good to be here  
It feels good to be here  
It feels good to be here  
I must a done, did something right here
