

# What's Inside of Me (Revised)

## Adore Me Not

Come into our world  
Let's see what's underneath the surface  
A red light in the dark  
lights the way  
it's the beating of your heartAnd it shines in the dark  
Come and see what's inside of meMoving faster to the edge  
and nothing matters at allI tried to believe  
what happens to me  
The mirror's falling apart  
this time I'll fuck with your heart  
I want you to know  
I settled the score  
I'm chasing no more for every piece that's gone from hereI wonder how you feel  
with all your dirty pretty faces  
A curse that can't be healed  
lingers here  
makes your real thoughts run and hideWon't you swallow your pride  
Come and see what's inside of meIt's running out of all source  
A feeling that comes alive  
Lick it all dry because nothing matters at allI tried to believe  
what happens to me  
The mirror's falling apart  
this time I'll fuck with your heart  
I wished we'd reduce  
our long time abuse  
no longer accused  
it's just a heartbeat awayCome and see what's inside of meThe circle gets closer  
No one left but me  
Try to believe what I cannot see  
Your black colored hair covering your eyes  
Nasty clothes, what you're trying to hide  
I must have been sleeping as this virus grew  
A feeling of hate and I  
I blame youI tried to believe  
what happens to me  
The mirror's falling apart  
this time I'll fuck with your heart  
I wished we'd reduce  
our long time abuse

no longer accused  
it's just a heartbeat away from here
