# I Love the Radio

## Silage

I love the radio
It always plays a good selection
I never hear the same song twice
I never hear the same song twice
And I never touch the dial
There's too much anticipation
What will they play next
It's sure to be the coolest
What will they play next
It's sure to be the coolest
And I love the radio
Chorus:
It's so entertaining
It's so captivating
It's so amusing
And it's so confusing
When I don't know what to do
I go to Tower and I try to choose
But I can count on 106.5
To be my trusty guide
I love music television
I don't think I could live without it
The videos are so rad and so original
The videos are so rad and so original
I'm glad they play them all day long
So I can hear and see my favorite songs
It's more than music, It's fashion, too
It's more than music, It's fashion, too
And I love music television
[Repeat Chorus Twice]
