

# Love Won't Leave Me Out

Chrisette Michele

Here I go with my heart wide open  
I'm all frustrated again  
Yeah lock the door, throw away the key  
Said I'll never let no one in  
I was gullible  
I was wrapped up in the web you caught me in  
So vulnerable  
True love lost its meaning And after self-evaluation  
I found I lost me in translation  
See the girl with the broken heart  
See the girl with the ugly scars  
It's not a girl with the brand new scarf, oh yeah Now I know how to love somebody  
I know love is out there for me  
I know there's no way that love forgot  
Love won't leave me out  
I know how to love somebody  
I know love will come back to me  
I know there's no way that love forgot  
Love won't leave me out It's amazing to know how far  
You could go on hope with no doubt  
It's the way love goes  
It'll take you through and it always brings you out  
It won't leave you stranded  
Though you may feel abandoned  
My experience is my evidence And with a little evaluation  
I found I got a whole lot of patience  
Am I the girl with the broken heart?  
And the girl with the ugly scars  
It's not a girl with the brand new scarf Now I know how to love somebody  
I know love is out there for me  
I know there's no way that love forgot  
Love won't leave me out  
I know how to love somebody  
I know love will come back to me  
I know there's no way that love forgot  
Love won't leave me out I can feel my heart again  
This time I'm not afraid  
I can open up my ear  
Hear what true love's got to say

This time I want it all  
No matter run or fall  
I won't back at all when love goes  
Now I know how to love somebody  
I know love is out there for me  
I know there's no way that love forgot  
Now I know how to love somebody  
I know love will come back to me  
I know there's no way that love forgot  
Love won't leave me out  
No, no, no  
It's not gonna leave me out  
no, no  
I've come too far  
I've come so far for love to leave me out like this, oh yea  
Oh it didn't forget about me  
Love won't leave me out
