

Hit the Switch

[Alexa Ferr](#)

Thugga, thugga
They gets no love, no love
They know what's up
They so tempted to touch But it was all the same, seen everything
Then I seen you (you)
And I ain't worried bout nothing
But there's somethin' bout you I know I said there was no way I would fall
I was in the game till you came in and changed it all Caught up in the moment
If you say you wanna ride
All i know is I'm going with you everytime You hit the switch on me
You hit the switch on
You hit the switch on me
At first it was
You look, no touch
Then we got a little closer, closer (oh)
Next thing I know, we on the move (Oh, oh, yeah) You'll never be the same
When I put my love on you
And baby I, I can't wait to flip and switch it up on you (you) I know I said there was no way I would fall
I was in the game till you came in and changed it all Caught up in the moment
If you say you wanna ride
All I know is I'm going with you everytime You hit the switch on me
You hit the switch on
You hit the switch on me Breakdown
Caught up in the moment (caught up, caught up)
If you say you wanna ride
All i know is I'm going with you everytime You hit the switch on me (You hit that, you hit that yeah)
You hit the switch on,
You hit the switch on me
