### THE FREAK SHOW

I was flicking through my Bowie LP's thinking Ziggy saved my life  
Then I touched my hand and started to think about my californian wife

I wanna live in some imaginary bubble  
Stay in bed all day avoiding any trouble

Don't want people to see the freak show going on inside of me  
Don't want people to see the freak show going on inside of me I was throwing stones at the waves that day

Surf music blows through my hair  
Then I started to think about getting a job  
and how much that I really didn't care

It's not as if I deserve a free ride  
Quite the opposite in fact  
It's just that I want to be true to myself  
And keep my dreams intact

Don't want people to see the freak show going on inside of me (x5)
