

Another Case

Uh Huh Her

im better than the other one
youre a harder chase
youre fast against mine
ill beat it, youre the weaker one
thats another case
ill taste the last line
i will take you to the other side
i will set you up
youre fast against mine
i will tear you from the other one
its a bitter race
youre fraili am stronger than the other ones
i will set them off
dont try to fight me
i will break you either way it seems
its a testimony
to how this will endill stop it when ive finally won
ill take you down somehow
i will stay till im the only one
thats another case
you failedand you feel youve lost it
and you know you lost ittell me im the only one
though its not the same
youre fast against mine
tell me im the only one
its a better place
youre mine completely
tell me im the only one
you give me hope somehow
tell me im the only one
thats another case
you feel so empty
