Some unions are based on trust, some unions are a must
Trussed up like a turkey, upside down on a turn key
You and meSome like it on the other side
Others like to play both sidesI give I give
I give I give I give I give, big girls
I give I give
I give I give I give I give, big joysI give I give
I give I give I give I give, big toys
I give I give
I give I give I give I give, I give I giveI'll give you gristle, you blow the whistle
Waiter service, wait for this miss
And don't you diss this, this is bliss miss
Around the world with this missDisgusting lewd rudeness
Secretly seductive, spontaneous combustive
Happiness a penis, I give I give I give
I give, give, give, give, give, giveI give I give
I give I give I give I give, big girls
I give I give
I give I give I give I give, big joysI give I give
I give I give I give I give, big toys
I give I give
I give I give I give I give, I give I giveYou can wear high heals in unusual places
And different situations can fit into new facesSomebody's like to roll in a sleaze
Never mind me, just do as you pleaseAll these implications
All these connotations
The pleasure in the leisure
Without the complicationsI give I give
I give I give I give I give, big girls
I give I give
I give I give I give I give, I give I giveI give I give
I give I give I give I give, big joys
I give I give
I give I give I give I give, I give I give
I give I give I give I giveBig joys, big joys
Big girls, big joys, big toys
Big girls, big joys
