Calm Before the Storm

Imaginary Cities

HmmmLet the day go on
Let it roll with ease
Let him be the one
You know, you know you need
Let the catcher see, what you can afford
We'll worry about the future when everybody's cruelHmmmMoney is good for nothing
Except everything it's true
The more you give, the less you'll need
It never looked that good on you
He done ran away
Person they all adored
In the calm
The calm before the storm
He done ran away
Person they all adored
In the calm
The calm before the storm
