

God Forbid

Excessum

God forbid
That I should lose, lose my mind
God forbid
God forbid
That I should lose, lose my mind
God forbid
We have cause to be uneasy
The evolutionary process has begun in a world that hates you
These secrets revealed belong to us
And when worst comes to worst
My peoples come first, my peoples come first
God forbid
That I should lose, lose my mind
God forbid
Insanity is just a thought away

God forbid
That I should lose, lose my mind
God forbid
Balancing the good that's left in me
Too many things going wrong around us
Too much to be done and so little time
We're so used to bowing down that we forget how to stand up
And we settle, settle for last in line but not this time
God forbid
That I should lose, lose my mind
God forbid
Insanity is just a thought away
Balancing the good that's left in me
Forbid
