Something Heavenly

Downhere

All the angels see all the angles
With a view from
both sides of the line
If I had not such a blind spot
Would I have a less difficult time
Surrendering my ways?
I would hang on
every word You say

I'm so far from what I wanna be
Oh, I really am
my own worst enemy
Please don't let me
get the better of me
Take this earthly thing
and make it finally
Something heavenly,
I wanna be heavenly

Air is cleaner,
grass is always greener
For the crowd of hosts
up where they are
If I could visit,
I'd just contaminate it
Why so big a place for me
in your heart
To leave your glory home
Just to make a broken man
your own?

If I try to soar, I will fall for sure
So let your grace break through
And lift me up upon it
to be with You

I'm so far, stay close to me
I'm so far, stay close to me
You're making me
something heavenly

Gonna be heavenly
