

# Make It the Mountain

**Jennifer Leonhardt**

'Cause my body likes the warmth too much  
And my heart wants the taste of things to come  
And it's too hard to say goodbye to you  
Babe, I'm tellin you, go on and

Chorus

Make it the mountain or the city  
Take it to sea level or the sky  
Anywhere you're livin's where I'm goin  
'Cause it's too hard to be apart and wonder why

My feet have walked me many a wide sand  
And my heart's always been lookin  
Now I find myself standin in a strange land  
Babe, I'm tellin you, go on and

Chorus

Make it the mountain or the city  
Take it to sea level or the sky  
Anywhere you're livin's where I'm goin  
'Cause it's too hard to be apart  
It's too damn hard to be apart  
It's too hard to be apart and wonder why
