

# One More Time

Kenny G

Well, I have waited late at night  
I reach out to touch, feel you by my side  
& I reach, & I reach, but I never get to feel you  
Will I ever get to feel you again, again  
Just one more time, one more moment, to take you in my arms  
One more chance, one more kiss, before I wake to find you gone  
One more time, before I have to face another day, & my heart breaks again...

It's only a drill but it's, oh, so real  
I don't want it to end, but I know it will  
So I pray, & I pray, every night I'm on my knees  
Begging for the chance to see you again, again  
Just one more time, one more moment, to take you in my arms  
One more chance, one more kiss, before I wake to find you gone  
One more time, before I have to face another day, & my heart breaks again, again...

Mmm...

Oh, one more time, before I have to face another day, & my heart breaks again, again...  
(fades)
