

Love Like You

Paper Tongues

I'll be the first to say I do
Love you so
Be the last to walk away
From what we know

You can't invent a jones like us
In this world
It only happens once upon a time
For boys and girls

I'll never find a another love like you
Who wants to be in love the way I do
Better is a day standing by your side
Your heart is like a castle in my sky
I'll never find another love like you
Who wants to really be my rainbow
I could only start to imagine how
We survived to see this day

Only if I had the words to paint the moon
I would paint it on a star just for you
Then we'd get inside a boat made of clouds
And we'd never turn around
We'd go all out

And mockingbirds they sing
Upon my tree
And the tower bells they ring
And I believe
And I'm askin' you to be
My everything
