

Gotta Let Go

Whoosh

You feel the power, you feel it getting strong
We'll make it carry everyone along
You bought a ticket to our surprise attack
You came to rock and there's no turning back Don't you wanna be the main attraction?
All you need's a little chain reaction
If you wanna set the night on fire Yeah, you gotta let go, yeah, you gotta let go
Well, you gotta let go if you really want to rock tonight
Yeah, you gotta let go, ooh you gotta let go
Well, you gotta let go if you really want to rock tonight Don't try to fight it, just give me all you got
You can't control it when it gets this hot
It's like this jungle, bye-bye to modern man
We're talkin' rock you'll never understand It doesn't matter if the world's exploding
It doesn't matter where the night is going
If you wanna set the night on fire But, you gotta let go, yeah, you gotta let go
Well, you gotta let go if you really want to rock tonight
Yeah, you gotta let go, you gotta let go
Well, you gotta let go if you really want to rock tonight I'm gettin' ready nobody's gonna stop me
Can't you, feel the fire burnin'?
Now's the time to start rockin' So if you wanna be the main attraction
All you need's a little chain reaction
You and I can set the night on fire Now, you gotta let go, yeah, you gotta let go
Well, you gotta let go if you really want to rock tonight
Yeah, you gotta let go, ooh, you gotta let go
Well, you gotta let go if you really want to rock tonight You gotta let go
Well you gotta let go if you really want to rock tonight, let go
You gotta let go
Well you gotta let go if you really want to rock tonight
You gotta let go, you gotta let go
