Love You More

Buzzcocks

I'm in love again
Been like this before
I'm in love again
This time's true, I'm sureDon't wanna end up like no nine day wonder
I've been hurt so many times before
So my darlin', I will never leave you
It's in my blood to always love you more, love you moreIt's my heart again
That drives me so wild
I just can't explain
Although I'm not a childSo why would I cry if you ever left me
Maybe 'cause you're all I'm livin' for
With every heartbeat I want you madly
It's in my blood to always love you more, love you moreOh, my love again
What I say is true
Though it may sound plain
I love youAnd it means more to me than life can offer
And if this isn't true love then I am sure
That after this love there'll be no other
Until the razor cuts
