

You're My Driving Wheel

The Supremes

You're my driving wheel
Feels good, baby
You take me farther, ooh
Than I've been before
Ride, ride, ride, ride You're my driving wheel
Feels so good, baby
Just one touch, ow, ooh
Opens up my door You're the engine that keeps me running
You're the motor that keeps me coming
To the road that keeps on winding
Coming to the love, I keep on finding Every time you touch me
Starts my motor running
I like the way you keep it humming
Keeps my motor running
I like the way you keep it humming Hey, you're my driving wheel
You better believe it, baby
You take me farther, whoo
Than I've been before
Than I've been before, yeah You're my driving wheel
My driving wheel, baby
Just one touch, ow
Opens up my door
Opens up my door Ain't a road in life I can't travel
As long as I know you're there
Ain't no map, I can't unravel
As long as I know you care Every time you touch me
Starts my motor running
I like the way you keep it humming
Keeps my motor running
I like the way you keep me humming, oh You're my driving wheel
I can't hear ya now
You take me farther
Than I've been before
Than I've been before You're my driving wheel
You keep me moving, babe
Just one touch
Opens up my door
Opens up my door, yeah You're my driving wheel
Driving wheel, baby

You take me farther, ooh
Than I've been before
Than I've been before You're my driving wheel
Drive me crazy, baby
Just one touch
Opens up my door
Opens up my door, yeah You're my driving wheel
My driving wheel, baby
You take me farther
Than I've been before
Yeah, yeah, ooh You're my driving wheel
You keep me moving, babe
Just one touch
Opens up my door You're my driving wheel
You keep me moving, baby
You take me farther
Than I've been before You're my driving wheel
You keep me groovin', baby
Just one touch
Opens up my door You're my driving wheel
You drive me crazy, baby
You take me farther
Than I've been before
Than I've been before You're my driving wheel
You're my driving wheel, baby
Just one touch
Just one touch
Opens up my door
Opens up my door, yeah You're my driving wheel
You keep me moving, baby
You take me farther
You take me farther
Than I've been before
Than I've been before You're my driving wheel
You keep me groovin', baby
Just one touch
Just one touch
Opens up my door
Opens up my door
